

# EZ Ramp Product Sheet

You asked! We delivered!!

**\$18,725**

We have spent the last 2 1/2 years testing and developing the product you wanted! Wolfe Mobility would like to introduce to you the new, revolutionary EZ Ramp!

EZ ramp is a lift system that rises over your existing stairs. It eliminates the need for costly renovations, construction permits, and permanent alterations to your space. The footprint required is minimal, and because it lifts you seamlessly over the steps you do not have to worry about steep, difficult to navigate ramps! This is the perfect solution for tight spaces, landlords needing to make an entrance way accessible, or homeowners who just love the look and function! The EZ ramp is an easy choice!

**Inconspicuous  
to the eye**

**Small and cost  
efficient**

**Replaces bulky,  
ramp systems**

**Stairs are still  
available for use**

**No second  
entrance for  
lift needed**

**No costly  
renovations or  
permits needed**

## EZ Ramp Specs
